PROFESSIONAL SUMMARY

Kaggle Grandmaster and AI/ML Engineer with deep hands-on expertise across the complete AI/ML spectrum — from classical machine learning to cutting-edge Generative AI and Agentic systems. Proficient in Python, PyTorch, TensorFlow, and the full data science pipeline. Passionate about building intelligent, scalable AI systems and automating complex real-world workflows. Currently contributing to multiple ML engineering roles, continuously advancing expertise in LLMs, Computer Vision, NLP, and Autonomous AI Agents.

CORE AI/ML COMPETENCIES

Programming & Math	Python (Advanced), Mathematics & Statistics for AI, Linear Algebra, Calculus, Probability
Data & Analysis	Data Analysis, Data Processing & Visualization, Pandas, NumPy, Matplotlib, Seaborn, Plotly
Machine Learning	Supervised & Unsupervised Learning, Feature Engineering, Model Evaluation, Scikit-learn, XGBoost, LightGBM
Deep Learning	Neural Networks, CNNs, RNNs, Transformers, PyTorch, TensorFlow/Keras, Transfer Learning, Fine-tuning
Generative AI	LLMs, RAG Systems, Prompt Engineering, LangChain, LlamaIndex, Groq API, Gemini API, Anthropic Claude API
Agentic AI	Multi-Agent Systems, LangGraph, CrewAI, AutoGen, MCP Servers, Autonomous Workflows
AI Automation	n8n Workflows, FastAPI, Flask, Celery, Redis, Webhooks, API Integrations, CI/CD for ML
MLOps	Model Deployment, Monitoring, A/B Testing, MLflow, Weights & Biases, Docker
NLP	Text Classification, NER, Sentiment Analysis, BERT, Seq2Seq, Summarization, Hugging Face
Computer Vision	Image Classification, YOLO Object Detection, Segmentation, OCR, Video Processing, OpenCV
Time Series	ARIMA, Prophet, LSTM Forecasting, Anomaly Detection, Trend Analysis

PROFESSIONAL EXPERIENCE

Machine Learning Engineer — Codveda Technologies | Apr 2025 – Present • Pakistan (Part-Time/Contract)

- Designed and deployed end-to-end ML pipelines for real-world data analysis and prediction tasks, reducing manual processing time by ~40%.
- Built and optimized deep learning models using PyTorch and TensorFlow achieving production-grade performance across classification and regression tasks.
- Led LLM integration projects incorporating RAG pipelines, prompt engineering, and Agentic workflows for client-facing AI applications.
- Conducted model evaluation, A/B testing, and performance monitoring for deployed AI systems.

Machine Learning Specialist — Arch Technologies | Apr 2025 – Present • Pakistan (Part-Time/Contract)

- Developed and tested ML models for predictive modeling tasks with cross-validation F1 scores consistently above 0.88.
- Performed comprehensive data preprocessing, feature engineering, and model training workflows on structured datasets.
- Evaluated model performance using precision/recall metrics and business KPIs aligned with client requirements.

Machine Learning Specialist — CodaAlpha | Mar 2025 – Present • Pakistan (Freelance/Contract)

- Built ML models for structured data prediction with hands-on preprocessing and performance evaluation pipelines.
- Deployed models to staging environments and monitored live inference pipelines for reliability and drift detection.

Computer Operator — Johar Centre Pir Mahal | 2022 – 2023 • Pir Mahal, Pakistan

- Managed data entry, document processing, and office automation using MS Office suite.
- Handled client-facing administrative tasks and maintained accurate digital records.

EDUCATION

Year	Qualification	Institution
2022	Intermediate (ICS) — Computer Science	BISE Faisalabad
2020	Matric — Computer Science	BISE Faisalabad

CERTIFICATIONS & TRAINING

• Six-Month AI & Data Science Mentorship — Codanics • Python ka Chilla for Data Science — Codanics • Tableau for Data Analytics — Codanics • Machine Learning — InnoVista Learn Easy • Python Course — InnoVista Learn Easy • MCP (Model Context Protocol) — Hugging Face	• Machine Learning Explainability — Kaggle • Deep Learning — Kaggle • Computer Vision — Kaggle • SQL, Python, Data Visualization, Data Cleaning — Kaggle • Kaggle Grandmaster — Top competitive rank globally
